INTER-CLASS ATHLETICS - 1929-30

Inter-class athletics were started in Lowell High School this year with two purposes in view; first, to develop each boy into some line of sports, and second, to give to the boy who was unable to make the varsity high school team the opportunity to participate in some branch of athletics, thus gaining the enjoyment out of winning and learning to be a good loser as well as a good winner, thereby developing that much sought after attribute—SPORTSMANSHIP.

This program we were not able to develop to the degree that it should be, from lack of proper equipment and facilities, which we hope to have in the near future. We were able to put on a fairly large and varied program, having the following lines of sports and gym work: Cross country, won by the Seniors; basketball, won by the Freshmen; volleyball, won by the Sophomores, who also won the kickball championship; and the Freshmen won the foul-shooting contest. We have two more sports to complete to finish out our program of activities for this year, playground baseball and outdoor track. When these two are completed we will declare the class with

the largest number of points the winner of the Inter-class championship of the Lowell District High School for the year 1929-30.

With this sports program we have had in our gym classes, tumbling and calisthenics. These we were able to put on before the Parent-Teachers' Meeting, the first time such a program has ever been tried here. Next year we hope to make it a large and elaborate affair.

It is our aim to develop this program in the high school to the point where every boy is participating in some branch of varsity athletics or on some class team. We feel this participation will not only show an improvement in the boy's physical makeup, but he will also show a marked improvement in his school work. All work and no play is as true as it can be, but as the high school develops its program of inter-class and inter-grade activities, so will the boy develop under this program of supervised athletics. Let our motto be:

"A boy for every sport and every boy in a sport."

GIRLS' INTRAMURAL ATHLETICS

Girls' athletics are new to Lowell High School. However, as in most new things, there are some novelty qualities about them. For instance, it is quite a novelty to shoot for a basket fifteen times and make one once, or kick a soccer ball and sit down in the wet, or, hold one's hands apart about one foot and expect a baseball to fall into them. Even though we may not have been so very successful in attaining that great quality termed "technique" in all our sports, we have certainly had some good times out of them.

We started rather late in our season's sports, and were unable to have a soccer tournament. We played soccer, however, and next year we will be ready to go out there and kick that ball down the field like veterans. We were successful in getting in a round robin tournament in basketball, however, and the Sophomore girls came out on top. We were also fortunate in being given the chance to do a little exhibition for the Mothers and Dads. We know we weren't as perfect as the boys, but the crowd seemed to enjoy our own improvised "technique." Immediately after basketball, we started volleyball. Being cheated out of a lot of our practices, we did the

best we could, and the Seniors showed they could do very well without much practice, by defeating the majority of their opponents. Baseball is just starting, and we are hoping one of the two defeated classes will come out on top. The Freshmen have always been able to show strong competition and even though the Juniors don't win all the time, they have as much fun, and may be a little more, than the rest.

Our athletic program was able to sponsor two events this year, the Carnival, and the Mothers' and Daughters' Banquet, May 10. There was only one thing which was a disappointment at our banquet, and that was the failure of delivery of the sweaters and letters of the Senior girls. Girls receiving letters this year are: Isabelle Blair, Minnie Duncan, Margaret Hayden, Flossie Hayward, Mabel Hiland, Hattie Gorbail, Sara Landon, Lorraine Sanders, and Ruth Wood. We hope there will be at least this many and more, who will have earned their points next year.

Here is for a bigger and better athletic program for the Girl's Department next year, and we hope to be able to develop that so much demanded and striven for, skill.

- 1996). The authors also found that the frequency of use of the Internet was positively related to the frequency of use of the telephone, and that the frequency of use of the Internet was negatively related to the frequency of use of the television. The authors concluded that the Internet was a new medium for social interaction, and that it was likely to become a more important part of social life in the future.
